Meetings: Tuesdays, 6 PM
Springs Municipal Airport
Public welcome!

SulphurSprings@txwg.cap.gov

Are You In?

- 21-23 Feb: Grp IV ALS @ WG HQ
- 14-15 Mar: Grp VI ALS @ Fort Wolters
- 11-14 Apr: Group VI BFS
- 1-4 May: TX WG Conference; Denton, TX
- ~28 Jun- 5 Jul: NESA
- Late Jun: TX WG ENC

Aerospace Education

Ground-ATC Radio Instruction

Cadets learn by doing: walking around a scaled-down taxiway and runway, marked on the floor, and assigned fictional N-numbers, cadets practice speaking to the "tower" for takeoff and landing.

FIRST ENCAMPMENT

"Develop leadership skills, learn about aviation, space, and technology, commit to a habit of regular exercise, and live the Core Values." As members of the Air Force Auxiliary that is CAP, this first intensive training event challenges cadets in these areas and more. The week long course also emphasizes multiple STEM topics and exploration of career opportunities in these and military fields.

C/SrA Betts
Texas, North

"Good character comes before good leadership"

C/A1C Hire
Texas, North

"I really liked the Aerospace education!"

C/A1C Neal
Texas, North

"Getting to talk about different careers really helped!"

GO FLY!

That's the subject line in the email to cadets that have successfully applied to the Civil Air Patrol Wings program, clearing them to start flight lessons. Sponsored by the U.S. Air Force and Ray Foundation, Wings is a merit-based scholarship for cadets seeking to complete their Private Pilot's Certificate. C/2d Lt K Breidenthal is the third cadet from Sulphur Springs Composite Squadron to receive the scholarship.

Her first orientation flight was in a glider, during a Glider Evolution, sponsored by our squadron, in June 2023, realizing she wanted to pursue flying, she started hitting the books and simulator. In June 2024, C/2Lt Breidenthal attended civil Air Patrol's North Central Powered Flight Academy, in Fremont, Nebraska, where she solo-ed. A month later, she applied for the Wings program, and a month after that, passed the FAA medical exam and knowledge exam. After satisfying a rigorous selection process, her "Go Fly" email came in December, and she has approximately 15 hours of flight time already in the logbook.

For more information about the Cadet Wings program, see gocivilairpatrol.com/programs/cadets/cadetinvest/cadet-wings
